

Online safety monitoring and network visibility

KCSiE and Prevent duty requirements for the world's leading firewalls

Monitor student well-being

Internet using reporting allows you to easily identify students at risk of suicide and self-harm, extremism, drug abuse, violence, and more.

Improve digital citizenship

Get visibility into students engaging with positive or negative online material.

Reduce the IT burden

Free up IT resources by automating safety reports and alerts for student welfare, safeguarding, and pastoral care staff.

Find out more at fastvue.co

Get the visibility you've been missing

Identify internet usage issues as they happen and keep your students, staff, and network safe.

Keywords

Fastvue's extensive, customizable, and continuously updated keyword database flags suspicious activity related to suicide and self-harm, extremism and radicalization, racism, drugs, pornography, and profanity, without the false positives.

Digital citizenship

Can your students navigate their digital environment safely? Easily assess a student's digital citizenship by assessing their productive and acceptable content alongside unproductive and unacceptable content.

Report on student groups

Send clear, comprehensive web usage reports to heads of year that highlight their cohort's suspicious searches, unacceptable websites, and YouTube videos watched, each day, week, or month.

Activity timeline reports

Comprehensively monitor student internet usage to see exactly when and for how long students have engaged with specific online content throughout the day.

Find out more at fastvue.co

YouTube monitoring

Keyword matching on YouTube video titles lets you easily discover videos that may be inappropriate in your school, along with which students spent time watching them, and how long.

Site Clean

Our unique Site Clean technology lets you see exactly what websites are being browsed, without advertising, ugly content delivery networks, or other unnecessary noise cluttering the reports.

Conquer your school's digital duty of care

Satisfy the 'appropriate monitoring' requirements set out by the KCSiE guidelines, Prevent duty and the UK Safer Internet Center.

- Illegal content
- Bullying
- Child Sexual Exploitation
- Discrimination
- Drugs / Substance abuse
- Self Harm
- Violence
- Suicide

IT, network, and security reports

Designed for the IT team, these reports highlight bandwidth issues, identify threats detected, summarize VPN activity, and make it easy to troubleshoot web and firewall policies.

Your school. Your data.

Fastvue Reporter is self-hosted in your own private cloud or on-premises. We never see your sensitive internet or network traffic data.

Designed for the world's leading firewalls

Don't compromise on security or network performance. Fastvue's safeguarding solutions are purpose-built for the world's most advanced firewalls.

STONYHURST

"Fastvue Reporter is able to intelligently interpret the firewall's log files and produce clear reports that can be sent to safeguarding officers in real-time or on a schedule. An independent school inspectorate were completely blown away by the reporting data, incorporating all the lists required to comply with the Government's KCSiE guidance."

Paul Wilmore
Director of Technical Services

stephen perse
foundation

"We were able to identify a particular issue [with a student] early, meaning we could provide support and help prevent the situation from becoming much worse. If we hadn't had Fastvue this could have gone on a lot longer before we would have noticed and things could have been much worse."

Andrew Brett
Director of IT & Systems Development

UPPINGHAM

1584 Forward

"Fastvue Reporter's flexible alert system helped us enhance online safeguarding and meet KCSiE requirements in our complex full-boarding BYOD environment. It effortlessly connects to our firewalls and Active Directory, sending immediate emails to Houseparents when students attempt to access inappropriate content, allowing for quick internet safety feedback."

Adam Niblett
Director of IT

 GARDENER
SCHOOLS GROUP

"Fastvue provides us with the detailed ad-hoc and scheduled reporting, alerting, and monitoring for our entire estate's internet usage that we need. This has enabled us not only to meet, but also to exceed the requirements of the United Kingdom's Keeping Children Safe in Education (KCSiE) mandate"

Hitesh Bhojan
IT Manager

We're a proud partner of the Internet Watch Foundation

Fastvue is proud to partner with the IWF to detect web searches and other online activity involving child exploitation within organizations, notifying the right people if and when they occur.
